SKILLS

Languages: TypeScript, JavaScript (ES6), Java, HTML, CSS, SQL. **Technologies & Tools:** Node.JS, NestJS, React.JS, iOS (Swift), Android (Java), Spring Framework, GitHub Actions, Docker, Amazon Web Services (AWS), Azure, Jira, Sabre. **Relational Databases:** MySQL, PostgreSQL. **NoSQL:** Redis, MongoDB, DynamoDB. **OS:** Windows, Linux, Mac.

WORK EXPERIENCE

ERGO TECHNOLOGY GROUP

Dublin, Ireland

SOFTWARE DEVELOPER

Sept 2024 – Present

- **Ergo Projects:** Designed, developed, and implemented **customized ServiceNow solutions** to address in-house ITIL project requirements.
- **Test Management:** Leveraged ServiceNow's Test Management Framework 1.0 to design, execute, and manage comprehensive test cases, ensuring quality assurance and alignment with client requirements throughout the development lifecycle.

TECHSPIAN

Pune, India

SENIOR SOFTWARE DEVELOPER

March 2021 – May 2023

- **Fitr:** Directed APIs development within a **Microservices architecture**, resulting in a 40% reduction in system response time at FITTR. Integrated Relational database and employed **distributed tracing** with Kibana.
- **TravelBrands: Architect** and implemented **robust backend system** for a booking Air Tickets, integrating with Sabre, NoSQL databases and cloud services. **Implemented** database **schema design**, set up **CI/CD pipelines**, **caching** and version control. **Containerization** with Docker resulting in high availability & scalability.
- **Interviewing and Training:** Conducted interviews for web and mobile application developer roles and provided training to new hires.

THREEPLUS

Pune, India

SENIOR SOFTWARE DEVELOPER

June 2019 – January 2021

- **Parco:** Designed and implemented a **multiplatform**, location based valet booking **application** used by 5k+ users. Orchestrated and **directed a team of 4-5 developers** in executing complex project with tight deadlines.
- **MMR:** Developed a drag-and-drop web tool for Big Bash Australia to generate PDFs and share them within the organization, teams, and umpires.
- **Code reviews:** Performed reviews for separation of concerns in front-end and back-end services, employed test-driven development by unit testing with Supertest & Jest, resulting in a 60% reduction in post-release defects.

e-ZEST SOLUTIONS PVT LTD

Pune, India

SOFTWARE ENGINEER

August 2017 – June 2019

- **Detroit Athletic Club App:** Worked on creating **iOS & Android application** for a famous club in Detroit. Developed mobile applications using **Swift** for iOS and **Java** for Android. Incorporated **Cloud Messaging APIS**, **Push notifications** into software to provide instant access to notifications.

EDUCATION

MSc In Computer Science (Advanced Software Development)

Sept 2023 – Dec 2024

Technological University Dublin, Ireland.

Coursework: Software Design, Systems Architectures, Advanced Databases, Secure Systems Development, User Experience Design.

Bachelor Of Engineering in Computer Science

June 2011 – June 2016

G.H Raison College Of Engineering, Nagpur, India.

PROJECTS

SmartWardrobe – Developed the backend for an AI-driven fashion platform, utilizing multimodal LLMs for natural language search and image similarity matching, with a recommendation system powered by vector databases and OpenAI CLIP model embeddings. [GitHub](#).

Paper Converse - Built a Next.js app for querying PDFs using multimodal LLMs, leveraging vector databases and OpenAI CLIP model embeddings to provide semantic search and document insights [GitHub](#).
